Patriotism and Loyalty Marked Observance of Celebration in Coleman

Dominion Day Will Long Be Remembered by Children for Whom Splendid Program Was Arranged--Baseball and Football Tournaments Were Strong Drawing Card--Ukrainian Children Gave Special Numbers

Nowhere in the Crow's Nest Pass or Southern Alberta was the Diamond Jubilee of Confederation observed more loyally or enthusiastically than in Coleman. Early on the morning of July 1st the streets were astir with music and decorations on stores and houses gave a bright touch of color, which, combined with the bright sunlight, betokened a day befitting such an important occasion as the sixtieth anniversary of Canadian Confederation.

Shortly after 9 a. m., the school children paraded and headed by the Coleman band, under the leadership of Jim Pearson, marched through the business section of the town where a large banner strung across the main thoroughfare bid welcome to visitors from far and near. The sight of between six and seven hundred children stepping along blithely with flags flying was an inspiration in itself, and reminded the onlookers that here were future Canadian citizens who in a few short years would be taking the places of those who were looking on as they witnessed their way to the sports grounds.

On arrival at the sports ground, the children were regaled with a lunch, and were addressed by Mayor Burns, who reviewed briefly the history of Canada leading up to Confederation, and which is printed in this issue. Following the lunch, a very complete program of sports was commenced, being arranged for all grades and ages. An event that created great interest was the pole vault, in which Flynn won against Emmerson, after they had jumped higher than the notch es on the bars. Both received rounds of applause for their performance.

The exercise by the Ukrainian children was very well given, showing that they had received careful training, while their young voices blended in perfect harmony. A dancing exhibition by J. A. Neale, C. Fraser, P. Fraser and O. A. Neale drew the attention of the crowd, C. Fraser being adjudged the winner, receiving a prize of \$10, P. Fraser \$7.50, the others \$5.00 each.

Flynn's Flyers won the basketball game against Emmerson's Demons, and in the football game Burn-

rell defeated Ballock, while the Pioneer baseball team defeated the Boy Scouts. The football game was very keenly contested, but when Burrell's team scored the first goal, they quickly followed with two more.

The evening closed with a display of fireworks, and a juncy dance was held in the arena rink, which attracted a large number of the citizens.

The "House, House" both run by the Canadian Legion was well patronized, but "Soak 'em Nigger" did not prove as much a drawing card as is usually the case.

Great credit is due to the committees in charge of the program for the two days, for by their efforts and the co-operation of the citizens, Confederation Jubilee was celebrated in such a manner that it will long be remembered by young and old in Coleman.

Coleman Wins Again

Coleman senior baseball nine defeated Blairmore last by 15-6. The return game will be played in Coleman on Friday evening.

Calgary Exhibition Opens on Monday

Many From Coleman Intend Visiting Exhibition and Stampede

The Crow's Nest Pass will furnish a heavy quota of visitors to the big fair at Calgary next week, and a large number will journey there by auto while others will go by train, the service to and from the city from Southern Alberta being very convenient to reach there with a minimum loss of time.

Manager Richardson sends out glowing reports of the exhibition this year, which is advertised in this issue, and states that in addition to the unprecedented number of attractions, the novelty revue "At the Fair" will close each evening's program in front of the grand stand.

Accommodation may be secured by writing or wiring Dan. F. Whitely, president Alberta Hotel Association, Calgary, and prize lists may be obtained from the general offices of the Calgary Exhibition and Stampede.

Oddfellows and Rebekahs Honor Departing Members

Mr. and Mrs. Hadfield, who left for Bedford, N.S., last Sunday evening, were the guests of honor at a farewell party given by the Oddfellows lodge on Thursday night. Mr. Hadfield being presented with an emblem ring. The week previously a surprise party was given them by the local Rebekahs at their home, and a framed photograph of the Crow's Nest Mountain was presented to Mrs. Hadfield, with the hearty good wishes of the members for their success.

O. E. S. Whiteside returned this morning from a business trip to Calgary.

Many Attended the Thanksgiving Service

National Thanksgiving Heartily Participated In Last Sunday in the Arena

The national thanksgiving service held in accordance with the authority of the national committee for the Diamond Jubilee of Confederation, was held in the arena on Sunday afternoon, it being deemed advisable to hold it there instead of at the park, owing to the threatening weather. About 250 people attended and joined heartily in the service, which was presided over by Mayor Burns, who gave the introductory address explaining the objects of the service, which was to participate in an expression of thanksgiving, and in which the people of the entire Dominion from the Atlantic to the Pacific would join at the same hour. He stated that as in Canada the municipal system lies at the very basis of its parliamentary institutions, it was fitting that these thanksgiving services should be held under the direction of the local municipal governing body, and no settlement or hamlet was too small or too remote to participate officially in the national thanksgiving.

The service opened with the hymn "Praise God From Whom All Blessings Flow," followed by a short address commemorative of the pioneers and settlers who laid our country's foundations, followed by the hymn "O God of Bethel." The people then joined in singing the hundredth Psalm, following which an address commemorative of the Fathers of Confederation was read by Captain Wall, of the Salvation Army.

A short prayer commemorative to those whose lives have been given in the country's service was read by the Rev. H. J. Bevan, followed by the sounding of the "Last Post" by J. Pearson, the people standing in reverent silence in honor of the departed. The hymn "O Valiant Hearts," followed with a prayer for divine guidance in the government of our land, followed by the 67th Psalm, the service concluding with the singing of a verse of "O Canada" and the national anthem.

The Rev. A. D. Currie, who had been announced to take part in the service, was officiating in a similar capacity at Blairmore, owing to the absence of the ministers there, and Father Cosman left on Sunday following Mass, for the annual retreat. The musical accompaniments were played by W. Lees, piano; J. Pearson, cornet, and Sidney White, violin.

Services at St. Alban's Church For the Month of July

July 10th, Evensong, 7.00 p. m.
July 17th, Evensong, 7.00 p. m., by Mr. Adam-Cooper of Pincher Creek.
July 24th, Evensong, 7.00 p. m., Holy Communion 8.00 a. m.
July 31st, Matins, 11.00 a. m.
Choir Practice on Friday, July 8th, at 7.00 p. m.
Sunday School will not be held during the months of July and August. The races that were postponed from June 29th, will be held on Wednesday, July 13th, at 3.00 p. m. in the park.

A very attractive booklet of 47 pages, with a map of Alberta and British Columbia, has been issued by the Department of the Interior, and the Commissioner of Canadian National Parks, and is profusely illustrated with scenes of the various holiday resorts in these provinces.

Notice to Advertisers

In order to give prompt service to advertisers, copy for advertisements must be in by Tuesday afternoon. The Journal is printed on Thursday morning, in order to enable it to be distributed by the newsboys and the post-office on Thursday afternoon. Telephone 209 is The Journal number.

Military Camp at

Sarcee July 18 to 28

Opportunity for Young Men to Have Ten Days Training and Sports Under Ideal Conditions

Young men who wish to take advantage of ten days in camp at Sarcee should get in touch with Capt. R. F. Barnes at his office on Main street, who is enrolling men for the annual training which lasts from July 18th to 28th. The men will leave here for Macleod, where they will be issued their equipment and uniforms, and proceed from there to camp. The unit Capt. Barnes is recruiting for is the 93rd Battery C. F. A., and he would be pleased to give full particulars to intending recruits, regarding pay and uniforms, etc.

Red Cross Executive

Appreciates Support Given

Junior Red Cross and Tuxis Boys Were Willing Helpers in Raising Money

The executive of the Coleman Red Cross wish to thank the following for their assistance in the recent campaign for funds:

The Junior Red Cross girls of Miss Yuill's room, for tagging; the Tuxis boys for soliciting membership and the general public for their contributions and memberships.

The sum of \$92.82 was collected and sent to headquarters.

Public Servants of 1867 and Children of Fathers of Confederation to be Honored

The following is an extract from a communication received from the executive committee of the national committee for the celebration of the Diamond Jubilee of Confederation: "It has been decided that the large Diamond Jubilee bronze medal be presented to all living children of the Fathers of Confederation and to any persons now living who were engaged in the public service or in connection with Parliament or any of the Legislatures of 1867."

Any persons in Alberta entitled to receive this recognition should communicate with the secretary of the Provincial Diamond Jubilee Committee, Parliament Buildings, Edmonton, giving their names and addresses and a synopsis of the public service qualifying them for the honor.

Reindeer Herd for Alberta

Raising reindeer for commercial purposes in Canada will be undertaken this year by the Dominion Reindeer Company, which has headquarters at Vancouver, which has imported some 5,000 head of reindeer from Alaska. This herd will be located on the vast grazing areas between the Athabasca and Great Slave Lakes where the company has secured over three million acres for this purpose.

Ball Tournay Furnished a Few Thrills

**Coleman Won Tournament After
Tearing With Blairmore--Blairmore Gave Down to Defeat
by Bellevue**

The baseball games on Saturday kept a crowd of fans in a turmoil of excitement. Coleman drew the bye, leaving Bellevue and Blairmore to play the first game in the afternoon. Bellevue won easily with a score of 16, while Blairmore notched only six runs. Mattson and Lacois held their opponents from piling a big score, while the Bellevue boys were hitting out pretty freely, making in the eighth inning nine runs.

The line up for the game was as follows:

Bellevue	Blairmore
Loonik	c. Dickin
Turner	3 b. Wasnock
Burdella	1 f. Van Gusteroven
Rosie	1 b. Manson
Hall	2 b. McKay
Mattson	p. Vevprava
Lund	s. s. Fadro
Ripley	r. f. Van Duren
Mills	c. f. Patterson

Box Score:
Bellevue--2 4 0 1 0 9 0.
Blairmore--0 0 2 1 0 0 2 1.

In the evening Coleman and Bellevue played off for first money, and the game started off with Coleman getting a nice lead of three runs in the first inning, adding four more in the third, which Bellevue tallied by scoring seven in the third. In the fifth Bellevue gained the lead by notching another four tallies, and Coleman countered by two in the seventh, five in the eighth and two in the last inning. A dispute arose at the last inning, owing to an error on the part of the scorer, when it was found that instead of Coleman having won by a run, both teams were even. After a heated discussion both teams agreed to play off for the deciding run, Coleman winning.

The line-up of Bellevue was the same as in the first game, except that the pitcher was changed three times, starting with Lund and Mattson finishing.

Coleman's line-up was as follows:
Wilson 3rd b., Runge c. f., Gardner s. a., Gate catcher, Hogan 2nd b., Bleke 1st f., Chapman r. f., Pollock 1st b., Polchuck pitcher.

Box Score:
Bellevue--0 0 7 0 4 0 0 5--16.
Coleman--3 0 4 1 0 2 5 2--17.
Charlie Graham refereed both games.

Fur Production Increasing

Alberta's total fur production for 1925-26 was valued at \$2,122,768, according to official figures compiled by the Dominion Bureau of Statistics and just received by the Dominion Bureau of Statistics and just received by the Provincial Game Branch. This represents a gain of \$90,000 over the preceding year, and puts Alberta in third place among the provinces in the value of furs produced.

Jubilee Medals for Children

Principal Powell requested The Journal to announce that those children who did not attend the parade and receive their medals on July 1 may obtain same on making application on his return from Edmonton.

Parade of Floats Was Very Interesting

McLaren Lumber Co. Awarded
First Prize and Moose Lodge
Second

In the parade on Saturday morning were seen some very nice floats, on which considerable time had been spent in their preparation. Very novel was the float of the McLaren Lumber Co., showing a log house surrounded by a border of grass and small trees, the curtains in the windows giving it a very home-like appearance, while sitting on the doorstep was the motherly wife of a pioneer rocking a baby, with pipe, bedecked in wide-brimmed straw hat and wearing long whiskers, standing by surveying the landscape.

The Moose float, entered by the Royal Order of Moose and the Moose Heart Legion, was also very interesting, a banner on it bearing the words, "Protection From the Cradle to the Grave," and grouped on it were members of the lodges.

H. Boulton, forest ranger, had a very nice float stressing the "Save the Forest" campaign, and the car that headed the procession, entered by D. Merry, of Coleman, was gaily bedecked with brightly colored ribbons and flags. The Elks float,

Week-End Specials

Intelligent buyers look for the week-end specials advertised in The Journal. Store advertising is store news, and is as important to the women who do the buying as the local news. See that you reach the people of Coleman with your store news by carrying an advertisement in The Journal. Phone 209.

Pythians Hold Memorial Service

On Sunday, June 26th, the Sisters of Progressive Temple No. 3, Pythian Sisters, and the Brothers of Sentinel Lodge No. 25, Knights of Pythias held a joint memorial service to which their friends were invited. The Sisters took their service first. It was presided over by Sister Counissa, M. E. C., assisted by the Officers of the Lodge. The Brothers' service was presided over by Bro. J. Lowe, V. C. During the service Bro. Percy Locke, K. R. S., delivered an address upon "The True Meaning of Our Memorial Service and Fraternity."

After both services were concluded the Sisters proceeded to the Cemetery where they placed floral tributes on the graves of their departed Sisters.

Sister Wilson and Brother Locke presided at the piano during the services.

Owing to the Scouts going to camp, the Wolf Cub will not meet next Monday night, July 11th. John Howarth, Cub Master.

CHAPTER III—Continued

From this distance Helmi could think of her work in the house with greater composure. She knew she was awkward sometimes, and maybe stupid, though she always tried hard to please. Anyway, it was good to have a job, even if she had to pick roots of potatoes in a muddy, wet cellar, and gather up the rotten ones to burn in the furnace.

Helmi had the large, restless hands which generations of hard-working women require, eager, capable, hands ready for anything that had to be done. Even the cook, Maggie Kenny, who wanted few words of praise on her assistants, admitted grudgingly that the Finn girl "has more hands and makes every move tell, if she could use her head as well, she'd do."

Helmi from the little hill on which she sat looked back at the smoky city, lying like a great giant, under its gray, grimy blanket of smoke. It reminded her uncomfortably of the blankets she had to spread every morning on the beds in the rear room of the hotel. In the front of the house she knew there were pleasant rooms, with white spreads and flowered wash basins, but at the back a rear yard of a room had what seemed like a hundred beds, spread with heavy blankets, and it was this room she had to sweep and tidy every day. Some days she found even still in bed when the rent in, but having set out to tidy the room, Helmi held to her course, taking no notice of the storm of abuse which came from the late sleepers.

Helmi's dreams that Sunday afternoon as she sat on the hill were for the most part pleasant. Consciousness of youth and bounding health made her hopeful of the future, she could work and she could learn, and she too would one day go back to Finland with a velvet bag, a long white gown and silk lingerie and fringe on her gloves; and all the young people would rather round her white she would tell of how she started, right at the bottom, washing up heavy dishes in a hotel.

DRAGGING-DOWN PAINS RELIEVED

Woman Suffered Nearly a Year. Lydia E. Pinkham's Vegetable Compound Brought Her Health

Moore Jaw, Sask.—"I am going to try to tell you how Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very badly with dragging-down pains and inflammation, also pains in my right side over my hip and down my whole side many times. I had it nearly a year when I went to a doctor and he said I would have to have an operation. But my mother said to take Lydia E. Pinkham's Vegetable Compound and it saved her life years before. I took two bottles and I found I was better, so I kept on taking it and it also saved my life. I am willing for you to use this finding any way you see fit and I will answer to you. I am glad to try."—Mrs. Emma Houton, 114 Moore Jaw, Sask., Moore Jaw, Sask.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all women.

For sale by druggists everywhere. G

W. N. U. 1685

as she drove home she was deep in a dream of golden romance.

Miss Abbie was a maiden lady of forty-eight years, thin and proper, her only extravagance consisting in the number of ornaments she would hang round her neck. On the day that Helmi had bounded into her most buggy, Miss Abbie wore her Miller-gray suit of serge, with the chaste neck-piece of black fur crowned with a small hat of dovelin and quills. All of this of course was most unobtrusive and ladylike, but because her thin neck was a string of jet beads (her mother's), a gold chain (her father's), and a riot of miscellaneous articles suspended from the chain. There were keys and a kettle, a pencil which had never had lead in it, a little pig made of bog oak, with a silver ring in its back and a pierced silver urn.

In the little, seven-roomed house where she lived the strictest order and precision prevailed everywhere save on the piano, where the same promiscuous spirit asserted itself. There, photos and vases, fans and shells, books and pictures, old stones, painted bottles, Easter eggs, a Bud-dist idol, basket and candlesticks crowded and jostled each other for standing room.

Miss Abbie's life showed the same uneventful years of careful practical living would suddenly give way to unexpected outbursts of wild extravagance. After living in one room in the house of a friend she horrified her select circle by building a house of her own. With equal suddenness she left the class of inauspicious maiden in the city to the orphanage where she was expanded from Sunday to Sunday the international Sunday School lessons and began her weekly visits to the girls' Friday home.

Certain members of the Ladies Aid Society said Miss Abbie was very odd, and that these strange outbursts were but indications of her real nature. The minister's sister, who was something of a psychoanalyst, mentioned her in this connection, with their small present of visibility as compared with their hidden volume.

During about the dusty summer and this Sunday afternoon, with the houses thickening on each side as they approached the city, Miss Abbie, moved from her dream, carefully studied her new companion. She studied her face, her eyes, her nose, her mouth, and these strange outbursts were but indications of her real nature. The minister's sister, who was something of a psychoanalyst, mentioned her in this connection, with their small present of visibility as compared with their hidden volume.

Helmi's young heart was thrilled for adventure. If the young man had been dressed more elegantly she might have thought they were the successful gold diggers of her dreams. But with a calculating eye she appreciated them deeply. She motivated them to go on, which they interpreted to mean that she desired to go back to the city with them. When she began to walk away the boldest of the two followed her.

Helmi questioned her pace. The young fellow caught up to her and took her arm. She shook him off and began to run. The running thing always lured pursuit, and, just as she expected, they followed. Helmi purposely let her pursuers catch on her, then, stopping and bracing her self, she gave the first one a powerful blow which sent him rolling down the bank towards the stream below. While the other was stopped to see what injury had been done to his friend, Helmi raced on. She was neither frightened nor angry—it was all good fun to her—but she knew enough to put as great a distance as she could between her and them for she suspected that the young man who had gone rolling down the muddy bank might not be pleased with her.

A woman, driving a gray horse in a hackboard, saw her coming and waited for her, deeply concerned to see the flying Helmi, who had evidently been sent upon two ruffians. Helmi jumped her conveyance, and landed into the seat beside her without delay. Again came the difficulty of language. "Yale Hotel," said Helmi in answer to the unintelligible inquiry, giving the name the accident and pronounced by the Swedish telephone girl of the hotel.

"Yale Hotel?" Why should it be "anyone?"

All of which was lost on Helmi, who merely repeated the name of her present companion.

Miss Abbie was distressed and greatly excited over the real adventure had broken in upon her Sunday afternoon meditations. She had been making her weekly visit to the girls' Friday home, where, during the last of the day were, Miss Abbie had told the girls a beautiful story of a patient prisoner, held prisoner in a castle, who at last was set free by the ingenuity of her lover; and now

Red Rose Tea, now packed in the bright, clean Aluminum package, is completely guaranteed. You can try it without any risk. Order a package from your grocer. Use any portion of it and if you are not entirely pleased return it and no charge will be made.

Oscoscope is Newest Invention

Amazing Medical Apparatus Made by German Scientist

An amazing medical apparatus which automatically signals whether one is in good health or not has reached London, and is being used with remarkable success by a West End specialist.

Named the Oscoscope, it is the invention of a German scientist, and in certain circumstances enables ordinary diagnosis to be entirely dispensed with.

A pressure of the finger on a tiny pole and the instrument instantly records with unerring accuracy the state of the patient's health.

An interested enquirer who tested it found that he was deficient in three important salts. Not only that, but the apparatus actually traced out in alphabetic character the dash or sign of the salt in question.

The miracle machine is the result of a long series of experiments based upon the discovery that in the air, air and earth and in the production of organic life, the creation and death of all life is dependent upon 16 different rays.

In the Oscoscope there are 16 tiny holes, each one of which tells by the pressure of the finger on the dial in the blood of the individual, and so denotes the state of the health.

An Envious Position

Practically No Tuberculosis Among Dairy Cattle in Fraser Valley

Dr. W. H. McKenzie, superintendent of the Dominion health of animals branch, in British Columbia, is of opinion that tuberculosis among dairy cattle in the Fraser Valley, B.C., will be practically eradicated within a year. Last year almost 5 per cent. were infected on test; this year's result showed a reduction of infection to 1.1 per cent. Next year he expects the reactors will be lower than one-half of one per cent. in this area. That is the rate officially recorded in B.C. free. Testing of herds from Hope to North Delta has been done, and of the 42,500 tested this year only 430 were reacted. Last year 4,300 out of 46,888 reacted. This he says, farmers in the Fraser Valley, realizing the value of healthy herds welcomed the veterinarians who conducted the test.

Had Several Reasons

A minister who had not been long appointed to a church in the South of Scotland asked one lady how she liked his preaching.

"I didn't like it at all," she answered. "Well, if you don't like it, why not?" he asked.

"Well, in the first place," she answered, "you read your sermon; na, in the second place, you didn't read it; na, in the third place, it wasn't worth the reading."

Children Cry For "Castoria"

Especially Prepared for Infants and Children of All Ages

Mother: Fletcher's Castoria has been in use for over 30 years to relieve infants and children of Constipation, Flatulence, Wind Colic and Diarrhoea, allaying Feverishness arising therefrom, and by regulating the Stomach and bowels, aids the assimilation of food, giving natural sleep without opiates.

The genuine bears signature of

Wm. D. Fletcher.

Importance of Agriculture

Employs More People in Canada Than Any Other Industry

Agriculture employs more people than any other industry in Canada. The latest available statistics show that 1,041,618 persons were employed when the figures were taken. Manufacturing came next with 548,557. There were 3,182,169 persons over 10 years of age actually employed in the Dominion, of which 2,645,010 were men and 498,159 women. These figures show that 47.5 per cent of the total population was engaged in some gainful occupation.

Waiting works wonders — If you keep busy while waiting

The Emden in the Pictures

German War Film Being Shown in London

Evidence that, feeling engendered by the War is dying down is forthcoming from the fact that a German film illustrating the exploits of the Emden is being shown in London by an English firm who are best known as the distributors of the British war films "Tyres" and "Mons." Some people consider that they have taken a bold step in showing the story of the German war picture, but the film is so good and so impartial that there is no reason why British audiences should not welcome it on its merits.

The story begins with the Emden's departure from Tientsin at the outbreak of war, and winds up with a remarkably vivid portrayal of her final battle with H.M.S. Sydney, off Cocos Island. It is as restrained and as fair as any of the British war films, and has a stronger narrative force than any except that of Zeppelins.

Without any unnecessary exaggeration of the glory or of the horrors of actual fighting, the War is shown from the angle of the crew of the German raider, and particularly from that of one young officer, a reservist in uniform at Tientsin, who meets his own wife as a passenger on one of the captured British steamers, is put in command of the captured British crew, and eventually dies during the final battle.

Enough glimpses of her various episodes are shown to give one a pretty good idea of her tough and adventurous career, and the co-operation of the fleet which finally has secured an authentic naval atmosphere. One episode is omitted. That is the interval during the Cocos battle when the Sydney, seeing the Emden hopelessly out of action, went to capture her coal tender, the Turek, before returning to enforce on Captain Von Muller an honorable surrender. The British are treated quite fairly; there is no "squeal" anywhere in the picture.

London Correspondence in Free Press.

NO MEDICINE LIKE

BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones. Whether it be for the newborn babe or the growing child the Tablets are always safe. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mr. John Moore R. L. South, Monaghan, Ont., says: "We have three fine healthy children to whom, when a mother is needed, we have given Baby's Own Tablets. The Tablets are the best medicine you can give your home where there are young children."

Baby's Own Tablets are a mild but thoroughgoing remedy for the stomach and bowels; banish constipation and indigestion; break up colic and cramps; soothe and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Conan Doyle's Early Struggles

First Twelve Years of Literary Career Were Hard

Sir Arthur Conan Doyle, who was 65 years old recently, is fond of recalling his own early struggles for the encouragement of building story tellers. Though he had a short story published in "Chamber's Journal"—a first encouragement of so many famous writers—when only 15, he wrote for three years after that without a success, and his early books brought but a small financial return. During the first twelve years of his literary career, indeed, he never made more than 25s per annum by his pen, and the first of the famous Sherlock Holmes series he sold outright, after numerous publishers had rejected it, for 42s.

One Won in Competition

The one and only man in the butter-making class at the Bath and West Agricultural Show took his hand at the churn when he competed against 100 other men, and emerged as the champion dairymaid and best. The winner was E. J. K. Elliott, from the Somerset Farm Institute, Bridgwater, and the class was for students who had been through a course of instruction in butter-making at a county school.

Anabular Surgeon—What brought on the fit?

The poor fellow's new car had just been delivered, and when he came out he saw a battery jumping over the palm tree.

One of them of experience is worth a fresh bag of advice.

Minard's Liniment for insect bites.

Enjoy a Real Tour on Gum-Dipped Tires

When you tour on Gum-Dipped Tires all roads seem equally good. There is nothing to compare with the smooth, sure performance of these big, low-pressure tires. Jolts and vibrations disappear. Bunches of rough going cannot disturb you or harm the mechanism and well-built structure of your car.

If it is slippery and muddy underfoot, Gum-Dipped Tires, having double the road contact, cling to the road and hold the car unwaveringly to a true, straight course. On grades there is extra traction; at sharp curves or in quick stops you will have perfect control of wheel and brake. Skidding is almost impossible.

Through the development of the exclusive Gum-Dipping process, Firestone has tremendously increased tire mileage in balloon tires. This insulates and impregnates every fibre of every cord with rubber, reduces internal heat and friction and delivers thousands of extra miles with added comfort and safety.

Ask any Firestone Dealer to show you the structure of Balloon Gum-Dipped tires in balloon tires. He is an authority on this type of tire and is in a position to serve you better than any other dealer.

Little Helps For This Week

Behold, we count them happy which endure.—James v. 11.

Well, to suffer is divine; Pass the watchword and the line, Pass the counterpane, "Endure!" Not to him who rashly dares, But to him who dares to care, Is the victor's garland won.—John Greenleaf Whittier.

If for some of us, and sometimes for all of us, sorrow means death, then our remaining breathing can be nothing—oftenest its hardest part.—William Channing Gannett.

Endure and dare, true heart; Endure patience, joined with faith; Endure, for a crown encircled with a thousand blessings.—Spanish Proverb.

Minard's Liniment for aches.

Experimenting on Dental Serum

That dentists soon may be injecting serum to prevent tooth decay is the prediction of a specialist in Chicago. Dr. C. N. Johnson, who is experimenting on such a preparation: Tooth decay, he says, is the most common ailment known.

Miller's Worm Powders act mildly and without injury to the child, and there can be no danger of their being over-used. Worms, they have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numerous cases, and have given relief to many children, who, but for the good offices of this compound, would have continued weak and feeble-minded.

Mrs. Smith—Did you know that your former maid is with us now?

Mrs. Smythe—You don't say so?

Mrs. Smith—Don't be frightened I only believe half what she tells me.

2ND AVE., E., COLEMAN, ALBERTA. H. T. Halliwell, Editor and Publisher

An independent paper published every Thursday. Subscription rates: \$2.00 per annum in advance; to U. S. and Great Britain \$2.50.

Legal, government and municipal advertising, 15c a line for first insertion and 10c a line for subsequent insertions.

Transient advertisements to be paid for when ordered.

Display advertising rates on application at the office.

THURSDAY, JULY 7, 1927

Confederation Jubilee

The community celebration here in honor of Confederation was entered into wholeheartedly by the entire population, and never has there been such interest taken in the historical record of Canada as on the sixtieth anniversary of Confederation. Though many nationalities are represented here, yet there was striking unity in the observance of the occasion, and evidences of a realization of a national consciousness. The wet weather of the second morning could not dampen the enthusiasm of the people of the Pass, and the otherwise ideal weather made Friday and Saturday days to be long remembered in Coleman.

Canned Goods

The Housewife's Friend

Housekeepers whose pantry shelves are well stocked with canned foods always have delightful variety in their menus. And how easy it is, when you can choose from scores of these wholesome foods, cooked and ready to serve.

You will always find Saturday specials in all lines of Groceries at our store. It will pay you to buy here, because all our groceries are of first quality.

BUTCHER SHOP

Prime roasts, chops and steaks, sausage, etc., which you will be more than pleased with. Make this store your Saturday shopping headquarters, in fact at all times.

The Pass Has Its Attractions

The attractions of Southern Alberta and the mountain road through the Crow's Nest Pass is attracting a large number of tourists, many cars having passed through from the prairies during the past week. Nowhere in Canada is there grander or more awe-inspiring scenery than in the mountains of Alberta and British Columbia, and the ever changing shades of light and shadow, sunshine and cloud, furnish attractions which are worth travelling long distances to see.

Increasing School Population

If the number of children is any indication of progress and prosperity, then Coleman must certainly be enjoying both. With an attendance of approximately 700, the school board is taxed with providing further accommodation, and are seriously considering building to provide the needed accommodation. Another indication of the popularity of Coleman is that the school board secretary received about a hundred applications for one vacancy on the teaching staff. The mountains evidently have their attractions.

We Want the News

The Journal would be pleased to receive items of local news from its readers and subscribers. There is sufficient activity every week to enable us to publish a paper of sufficient interest to make it a welcome arrival in the home every week. The more local news that is recorded each week, the more interesting your local newspaper becomes. Remember our telephone number is 209, and do not hesitate to use it whenever you have an item of news.

Civic pride in the hearts of the citizens of a community will help to send it ahead. The town we live in is just what we ourselves make it, and with loyal co-operation the wheels of progress will certainly keep turning.

How's Business in Coleman

How's business?

As a rule, commercial business is conceded to be the necessary element in progress and prosperity, and without a good volume of business all the rest would fail or have difficulty in weathering the storms of adversity. But there is other "business" to look after in order to have a well-rounded community life. Let us see just how good is business.

There is the business of bringing up and educating our children and this business falls to the home and school and community.

There is the business of local government which devolves upon our elective and appointive officers, but who need co-operation from the citizenship at large.

There is the business of being a good citizen—the business of "shooting square" with the other fellow.

There is the "Father's business," spoken of in the Holy Book, and which calls for unswerving faith and devotion in matters of the spirit.

Then there is "everybody's business" which is said to be nobody's business, but it is the business of all of us to transact it in the light of conscience and duty.

Every effort for good put forth by the humblest citizen adds to the general prosperity and culture of all the rest.

So far as we know business is good in Coleman.

Coleman Tennis Players at Fernie Tournament

The Crow's Nest Pass tennis tournament held on Friday and Saturday was attended by the following players from Coleman: Mrs. W. S. Purvis, Miss Gladys Price, Mrs. A. E. Graham, Messrs. L. Lindoe, R. F. Barnes, W. T. Watts, Dr. D. A. McLeod, F. H. Graham, W. S. Purvis, J. A. McDonald.

Two juniors went up, Frances McLeod and Idris Hayson. The finals were played last evening on Coleman tennis courts, the result being in favor of Mrs. Purvis and Mrs. Kerr, defeating Mrs. Graham and Miss Price, the score being 6-0, 6-3.

Local Improvement in

Vicinity of School

Approximately \$3,000 to be Expended in Replacing Trestle With Retaining Wall

A local improvement for which the contract is shortly to be let, involving an expenditure of about \$3,000, is the building of a cement retaining wall in place of the trestle north side of Central school. The cost will be borne jointly by the town council and the school board.

Automobile Sales

Automobile sales by the Coleman Garage this week include a Pontiac Sedan to John Mackie, Hillcrest; Pontiac Sedan to T. Bowen, Coleman; a McLaughlin-Buick to Harry Carney, Bellevue, and a Ford Touring car to Steve Sekela, Lundbreck.

Mr. and Mrs. J. E. Poppitt of Calgary are guests at the Grand Union Hotel.

Here and There

Construction will be started shortly, it is announced, on the 2,400,000 bushel elevator to be erected by the Alberta Wheat Pool at Vancouver, and it is expected that the big plant will be ready to handle grain from the 1927 crop.

Twenty-three members of the Ohio Wesleyan Glee Club sailed recently on the Canadian Pacific steamship Montrose for England, where they will visit a short while before beginning a singing tour of the countries of central Europe to last about a month.

The Holy Land is to be officially represented at the World's Poultry Congress, it is announced. Dr. David Uri of the poultry experiment station in Palestine, will represent that country at the great international event to be held in Ottawa from July 27th to August 4th.

A new direct steamship service between Saint John and Havana, Cuba, will likely be inaugurated from the first of September, when the potato shipments start, if the New Brunswick Government and the shippers of the province back the project, said F. L. Estabrooke, of Sackville, just returned from a trip of enquiries in Cuba.

A bed which rocks its occupant to sleep has been invented by Sir Alfred Yarrow, British scientist. Sir Alfred, while travelling across Canada on the Imperial Limited some months ago, noticed that the slight sway of the train cured his insomnia. This fact resulted in his constructing the unusual bed which enables him to sleep soundly.

Mayor Burns' Address to School Children

Historical Review of Early Settlement and Struggles for Responsible Government in Canada

The first instalment of the mayor's address to the boys and girls on Dominion Day is given below, and is of sufficient interest that The Journal will publish an instalment weekly for the next four weeks.

Mayor Burns spoke in part as follows:

"We are here this morning for a special purpose, to celebrate the Diamond Jubilee of Confederation and our Great Dominion, and to get the true meaning of our Confederation we have to go back to the first explorers of our country. The first white man to land on our shores was John Cabot, in 1497, landing at Cape Breton, he being sent out by King Henry VII. of England. The next explorer came from France—Jacques Cartier, in the years 1534 to 1541. He came up the St. Lawrence River as far as Montreal. The next explorer also came from France, named Samuel de Champlain. He was the first real explorer of the eastern part of our great Dominion. In those days the settlers had many wars with the Indian tribes and a young general was sent out from France in the person of Montcalm for the purpose of conducting their military operations in this new country. In the meantime England had gained a foothold in Nova Scotia, known at that time as Acadia.

General Wolfe in 1759 was sent by the King of England with an army of men to make further gains in this new land. This led to the battle on the plains of Abraham against Montcalm and the falling of Canada into the hands of the English.

After the English possessed Canada emigration started from England, Ireland and Scotland, some stopping in the Maritime provinces, but the majority went further west up the St. Lawrence and Ottawa rivers, thus settling what is now known as the province of Ontario. As there were now two races of people living in this new country, each wanted to be governed after their own convictions. The Constitutional Act of 1791 which divided Ontario from Quebec into upper and lower Canada gave them a representative form of government, the same as was granted the Maritimes in 1768 and 1873.

Later railways and telegraphs be-

gan to be installed in all the provinces, thus enabling the people to get together. Confederation was discussed among the people in upper and lower Canada, and in 1861 Hon. Henry Sherwood published and circulated a plan for the Federation of all North American provinces, providing for two elective chambers and a system of local legislatures similar to those we have to day, except that provincial governors were to be elected.

About this time certain trade agreements with the United States terminated, also the British government told Canada that she must look after her own defence, these events making Confederation a practical question. Meanwhile a movement was taking place in the Maritime provinces for a union among themselves, and the Legislatures of those three provinces authorized their representatives to hold a joint conference to discuss the advisability of such a move.

As a consequence a meeting was called at Charlottetown on September 1, 1864. Ontario and Quebec having learned of this conference asked for and received permission for their delegates to attend and present their views, and prevailed upon the representatives present to adjourn their conference and meet at Quebec to discuss a Federal Union of all provinces rather than the union of the Maritime provinces only.

WEDDING

McLEAN-FOSTER

The wedding took place on Wednesday afternoon, June 29th, at five o'clock, of Mr. J. H. McLean of Bellevue and Miss Annie Foster of Coleman. The wedding, a very quiet one was witnessed by only the immediate relatives of the bride and groom. The bride came into the room with her brother, and was dressed in a lovely gown of blue tulle with grey stockings and silver slippers. She carried a bouquet of Ophelia roses and fern. Miss Christie Allan held the bride's bouquet during the ring ceremony.

A splendid dinner was served immediately after the service. Later in the evening Mr. and Mrs. McLean left by car for Banff, travelling by way of Fernie and Cranbrook. They will return later in the summer to Bellevue where the groom is in charge of the schools.

For travelling the bride wore a navy blue coat with fur collar and a white silk mohair hat. A large number of pretty and valuable gifts were received by the young couple. The very best wishes of their friends and acquaintances follow them to their future home and work. The ceremony was performed by the Rev. H. J. Bevan of the United Church.

Local Violin Pupils

Pass With Honors

Under Tuition of W. J. Harris, Pass Exams by Toronto Conservatory

Mr. E. J. Farmer, of Toronto, who was the representative sent by the Toronto Conservatory of Music to examine at Coleman on June 28th, was a very busy man during the testing of the powers of the young string players entered by Mr. W. J. Harris, music teacher of this town. The results are now at hand, and much credit is due to Mr. Harris and his pupils, seeing that every pupil entered, satisfied the examiner and in due course will receive a diploma from the above Conservatory. More than this we find that one pupil passed with first class honors, while another five pupils obtain pass with honors.

This is the first examination that Mr. Harris has conducted since coming to this country, and it is to be hoped that all future examinations will be of such a high standard.

The names of the successful candidates are as follows:

M. Malanukh, pass with first class hon.

F. G. Harris, pass with honors.

AVIATORS LAND IN HAWAII AFTER AN EPIC FLIGHT

Wheeler Field, Island of Oahu, Hawaii.—First to make the 2,400 mile flight between San Francisco and Honolulu, the army fliers, Lieutenants Lester J. Matland and Albert Hegeberger arrived here after finishing their long flight in 25 hours and 43 minutes.

Throughout the trans-Pacific trip they had been reported seen only once, by the steamer Sonoma, when 750 miles from the California coast.

The army fliers came in through sunshine that had cleared away the rain and gloom of the night that shrouded their landing place.

Thousands who had waited through the long night had begun to disperse when Matland and Hegeberger came through the haze to triumphant landing.

In their flight of approximately 2,400 miles, Matland and Hegeberger completed the longest trans-oceanic aeroplane flight ever accomplished. The landing was made on a rain soaked field. The huge plane taxed the entire length of the field.

Then, creaking, it came back to the front of the review stand where the highest army, navy and civil authorities in the island were waiting to extend congratulations to the flyers.

The crowd, augmented by hundreds of reporters, greeted the fliers with wild joy and enthusiasm. Guns of fortresses thundered in salute as the plane stopped before the reviewing stand.

Major General Edward M. Lewis, commander of the Hawaiian department of the army, clasped hands with Matland and Hegeberger and the eyes of both aviators filled with tears, as he said:

"My boys, I congratulate you."

Matland said that the radio beacon on the island of Maui failed to function.

"Our compass, he said, 'is what got us here. If we had not had that we would have been out of luck.'"

When asked whether they were tired and hungry both flyers admitted that a cold chicken sandwich would appeal to them.

"We had some coffee and sandwiches, but we could not find them, although we looked all over the plane while travelling," said Matland.

Hegeberger said: "Sure we had a lot of mean weather on the trip. Indeed we had our troubles but we feel great satisfaction in having made the dash."

Believes Strike Is Imminent

C.N.R. Employees Vote in Favor of Action Says Maguire

Montreal.—Despite the action of the Canadian National Railway giving increases to some 18,000 employees, a strike of those workers is imminent, stated J. E. Maguire, general chairman central region, Canadian Brotherhood of Railway Employees here. Results received to date from the strike vote taken recently were overwhelmingly in favor of a strike, it was said at union headquarters.

Hungary's Wheat Crop Less

Ottawa.—According to a cablegram received from the International Institute of Agriculture at Rome, the wheat crop of Hungary is 68,784,000 bushels as compared with 69,200,000 last year and 71,674,000 in 1925. The cablegram also states that Hungary's rice crop is 25,511,000 bushels against 30,015,000 in 1926, and 32,525,000 in 1925.

Authorized to Fire Salutes

Ottawa.—Edmonton has been added to the list of stations at which artillery salutes are fired on certain authorized occasions including Royal salutes on the sovereign's birthday and Dominion Day, according to an announcement by the department of National defence.

Might Impair League's Mission

Geneva, Switzerland.—Great Britain has dropped her proposal for an invocation of the proper office of League of Nations' activities, seeing that she feared the league would be harmed by indiscriminate endorsement of new tasks, which would obscure its high mission to maintain peace.

Canada's Trade Increase

Montreal.—Canada leads all nations in increased trade since 1913, according to statistics compiled by the National Foreign Trade Council of New York. The figures show that Canada's increase was 85 per cent, Australia coming next with 45 per cent, and the United States third with 21 per cent.

W. N. C. 1928

Crops Doing Well

Favorable Crop Report Covering All Western Areas

Winnipeg.—Since the completion of seeding operations weather conditions have been entirely favorable for growth, and crops are doing well almost everywhere, according to the weekly report issued by the Agricultural Department of the Canadian Pacific Railway. Earlier sown grains are practically as far ahead as at this time last year, with the grain sown later about a week behind. A considerable percentage of the crop was put in unusually late, but with present weather conditions maintaining the rapid and healthy growth there should be no question of harvesting the crop within time this fall.

Cornworms have caused damage of a minor character at a few points, but the loss in this respect does not nearly approach the average. Hail has been down the crops over the entire acreage in a few localities in Saskatchewan and Alberta, but the grain was not sufficiently advanced to be permanently injured. The noticeable feature this year is found in the increased amount of new breaking corn, and the farmers are taking every advantage of the satisfactory soil moisture conditions.

Welcome Return of Royalty

Duke and Duchess of York Are Home After Six Months' Tour

London.—The British newspapers were filled with enthusiastic welcome to the Duke and Duchess of York upon their return from their six months' tour to New Zealand and Australia. In connection with the welcome are many references to the self-sacrifice of the Duchess of York in having left her infant daughter, Princess Elizabeth, for so long a period. One writer says this gives the Duchess a link of common understanding with all those other British wives and mothers whose husbands are called to fight or make homes in the outposts of the empire and who must choose between their husbands and children.

Chinese Nationalists Suffer Defeat

30,000 Casualties Reported After Four Days' Fighting

London.—A Shanghai despatch to Exchange Telegraph says the Chinese Nationalists admit suffering the heaviest reverse of the war at Suichow, North Western Kiang province.

Attacked by General Sun Chuan-fang and his Shantungese the Nationalists evacuated the city after four days fighting, in which they lost 30,000 men; mostly killed, and retreated 20 miles to Pengtu.

Killed in Air Crash

Flight Lieut. Anderson in Fatal Accident at High River

Calgary, Alta.—Flight Lieut. C. N. Anderson, Royal Canadian Air Force, was instantly killed when his plane crashed and burned at the High River Federal air patrol station.

The accident occurred as the flier was landing in formation, a test flight for the Jubilee Celebrations being in progress.

The wrecked ship immediately burst into flames.

Anderson was 25 years old, unmarried, and his family resides in the Brandon district.

Dr. Haanel Passes

Ottawa.—Dr. Eugene Haanel, for 20 years superintendent and director of mines, died here recently, aged 86 years. He was internationally famous and held a number of degrees from Canadian and American universities.

Seed Company Changes Hands

Regina.—L. R. Robinson, western manager for the Steele-Driggs Seed Company, Limited, has announced the purchase by the Steele-Driggs Company of the Canadian interests of the L. M. Perry Company, Windsor, Ont.

The purchase gives the Steele-Driggs Company a total calling list of 34,000 merchants, while the D. M. Perry Company will concentrate its efforts in the United States.

Retains Premiership

HON. JOHN BRACKEN, Premier of Manitoba, whose Government is returned to power.

TWO CLASSES FOR CRUISERS URGED NOW BY BRITAIN

Geneva, Switzerland.—Great Britain proposed to the technical committee of the tripartite naval conference that the cruisers be divided into two classes, one of 10,000 tons carrying eight-inch guns and the other of 7,500 tons with six-inch guns.

The United States and Japanese delegations requested time to examine the proposal "in the light of the effect it would have on the navies of each power concerned during the life of the treaty."

Some observers have expressed fears that the tripartite naval conference has reached a critical stage because the British and United States representatives have not yet been able to come together on the question of reopening the Washington treaty.

The Japanese have announced their inclination to support the British view on the question of limitation of the size and armament of battleships, consideration of which would mean re-discussion of problems thought to have been solved by the Washington treaty of 1922.

The determination of the United States delegates to restrict the conference to the scope outlined by President Coolidge's invitation to the powers remains unchanged.

UNITS OF EMPIRE AS ONE IN TIME OF COMMON PERIL

Chicago.—The British family of nations may bicker among themselves but they will meet an outside menace with a united front, Sir Cecil Hurst, legal adviser to the British foreign office, told a University of Chicago audience during the second of a course of lectures on "Problems of the British Empire."

In this lie the claims of empire to be a total unit, and international though foreign powers might question the reasonableness of treating the empire as a unit in strength of the common allegiance to one king, Sir Cecil said.

"Families cannot be made by contract; they cannot be made or unmade by mere agreement of their members. The British empire has grown up together and as they become stronger, they may have become more self-contained more able to stand alone; but the ties which united them to the parent state remain intact."

British nations, Sir Cecil declared, will continue to act together in foreign affairs because the spirit of British autonomy is based on the admission that questions affecting the whole group cannot be left to one member of the group to conduct without reference to others.

Equality of status among nations, as among individuals did not necessarily mean equality of stature, wealth or temperament. In the British Empire equality meant the absence of any power of control by one community over another. Some inequalities still exist between the powers of the British and Dominion governments but these were being swept away.

News of Men Elect Officers

Mr. Sam Wynn, Yorkton, New President of Weekly Newspaper Convention

Huntsville, Ont.—Sam Wynn, Yorkton, Sask., was elected president of the Canadian Weekly Newspapers Association at the concluding session of the annual meeting here. Other officers are: First vice-president, S. B. Anslow, Campbellton, N.B.; second vice-president, Hugh Savage, Duncan, B.C.; directors include: British Columbia, R. E. White, Kamloops; H. J. Parsons, Golden, Alberta; Charles Clarke, High River, A. R. Enns, Le-de, Saskatchewan; C. R. Macintosh, M.P., North Battleford; D. C. Dunbar, Estevan.

Makes Parachute Descent

Toronto Girl Drops From Aeroplane At One Thousand Feet

Hamilton, Ont.—Miss Caroline Sykes, a Toronto clerk, made what is known to be the first parachute descent from an aeroplane by a woman in Canada here when she stepped off an aeroplane 1,000 feet up in the air and made a perfect landing on the top of a mountain. Miss Sykes had been up in an aeroplane but once before. It is likely she will be employed to repeat the stunt daily at the Canadian National Exhibition in Toronto.

Novel Flight Planned

London.—Mayor Moore announced that an invitation would be broadcast immediately to aviators to qualify for a non-stop flight from London, Ont., to London, England, for a prize of \$25,000 to be provided by a local brewer. A machine for the flight will be purchased by the same concern and handed over to the aviator as soon as one fully qualified, preferably a Canadian, has been found to undertake the trip.

Favor Amalgamation

Vancouver, B.C.—Ratepayers of Vancouver and South Vancouver by overwhelming majorities voted in favor of amalgamation of the city and the municipalities of South Vancouver and Point Grey.

Receives Peace Prize

Oslø, Norway.—Foreign Minister Stresemann of Germany has arrived here to receive the Nobel peace prize for 1926 which he shares with Foreign Minister Briand of France.

Robbers Destroy Noted Paintings

London.—Scotland Yard detectives are investigating the \$35,000 robbery of the home of Colonel Harry Dey, M.P., in which the thieves slashed four valuable paintings, one the gift of Hindustani, the handuff king, in 1809, inscribed "To Harry Dey from his Governor, Sir Harry Hindustani." Colonel Dey said he could not imagine a motive for the vandalism.

Bill Given Second Reading

London.—Second reading was given in the house of lords to the Workmen's Compensation "Transfer of Funds" Bill, under which compensation awarded beneficiaries in one part of the Empire may be transferred to the country in which they reside. The bill arose from a resolution passed by the Imperial conference last year.

Increased Acreage in B.C.

Interpreters, B.C.—Agricultural progress in this part of the province is attracting a good deal of attention. It is now reported that 70 acres of canning peas will be set out this season.

Increases in Coal Output

Vancouver.—During the first four months of the year the coal mines of British Columbia produced 554,234 tons, an increase of 164,825 tons compared with the similar period of 1926.

Best Opening For Aviation In Canada

Vancouver, B.C.—This year's two successful trans-Atlantic flights have given a tremendous impetus to the development of air transportation, and commercial flying will see wide-spread extension both in the United States and Canada during the next few years in the opinion of B. F. Mahoney, head of the Ryan Airlines Inc., San Diego, builders of the "Spirit of St. Louis," the monoplane in which Colonel Charles A. Lindbergh made his epoch-making flight from New York to Paris.

"Advances made in the science of flying during the past few years needed only to be brought to public attention," he said, and went on to state that "transportation by air when properly conducted is at least as safe as any other means of transportation."

He attributed the slow adoption of the flying idea to the vast amount of publicity on accidents in it and the newness of the science. "An aeroplane passenger may be scratched in some accident and because of that appears in big headlines, while a railway passenger accidents in it and the newness of the science."

"What is the greatest problem waiting to be solved by flying men today?" he was asked.

"I would say that unquestionably it is the establishment of airways, air stations, equipment for night flying and the provision of emergency landing fields," he replied. "This is up to the various towns and cities and the Governments of the Province of Canada, the United States and Federal Governments."

"Canada," he said, "has the biggest openings for aviation of any country in the world. It is a country where the factors of time saving and vast distances are involved and where consequently air flying can fill a distinct national need."

Canadians All

Mile. Carriers Says Canadian Is a Title to Be Proud Of

Toronto.—After 58 years, Mile. Horstman Carrier, daughter of one of the Fathers of Confederation, Sir Georges Elie Carrier, returned to Toronto. Toronto was her childhood home between 1855 and 1856. When the Government moved to Quebec at that time she went with her father, and until today has never seen Toronto again.

Nadonichio Carrier came from France as the guest of the Canadian Government to attend the celebration of the diamond jubilee of Confederation.

Dusting Wheat Fields

Will Use Aeroplanes to Control Dust by Spreading Chemicals

Fargo, N.D.—Aeroplanes for dusting wheat fields with "rocks," a chemical with which experiments are to be made in the hope that it will prevent or control black stem rust on wheat, will be used on an extensive scale in Manitoba and will be used in a smaller way in Cass County, North Dakota, it was learned here.

T. M. Smith, chief officer of the Royal Canadian Flying Corps, spent Sunday here en route from Philadelphia to Winnipeg with a new aeroplane which he will use in dusting fields in Manitoba. It is planned to treat about 1,000 acres in the Canadian provinces.

Walter R. Reed, who is to make similar experiments on his farms near Chaffee, N.D., conferred with Mr. Smith. Reed has conducted Canadian experiments. Mr. Reed will have experiments made on three different kinds of wheat, dusting about 10 to 15-acre tracts of each.

Bans Milk From Montreal

Health Commissioner of New York State Issues Strict Orders

Saratoga Springs, N.Y.—Health officers throughout New York State have been directed by Dr. Matthias Nicol, Jr., state commissioner of health, to exclude from their districts all imports of milk and milk products originating in Montreal within the vicinity of the Canadian metropolis.

In his warning, sounded at the opening session of the annual state convention of public health officers here, Dr. Nicol said that Montreal was in the grip of the greatest typhoid epidemic of modern times.

In a population of 700,000 there have been over 7,000 cases of the disease, with a death rate of eleven for each one hundred cases, or nearly 800 deaths. The disease has been an epidemic since January, he said. It was milk borne epidemic and emanated apparently from a pasteurizing plant in the city.

Ship License Cancelled

Panama.—Panama Consul Morris at Vancouver, B.C., has been ordered to cancel the Panamanian registry of the ship Federal which some time ago was seized by the American prohibition authorities and later released on the order of a Federal court. The Panama action was based on the non-payment of \$115 due to the National Treasury for taxes. Mr. Morris reported that cancellation of the Panamanian registry had been notified by the owners of the vessel.

Famous Explorer for Japan

Captain Roald Amundsen, famous Norwegian explorer, who has flown and sailed to the North Pole and its vicinity, is taking a trip to Japan and

is here shown on board the Canadian vessel consul at Vancouver and S. L. Preston, of the Vancouver Harbor Commission. It is understood that Captain Amundsen is merely taking a holiday trip.

Increased Acreage in B.C.

Interpreters, B.C.—Agricultural progress in this part of the province is attracting a good deal of attention. It is now reported that 70 acres of canning peas will be set out this season.

Increases in Coal Output

Vancouver.—During the first four months of the year the coal mines of British Columbia produced 554,234 tons, an increase of 164,825 tons compared with the similar period of 1926.

Transfer of Military Units

Several Western Units Will Change Location

Ottawa.—Relocation of a number of military units throughout Canada is announced by the department of national defence.

The Westminster Regiment Company, has been transferred from Mississauga to New Westminster, B.C.

The Ashcroft Regiment, C. Company, has been transferred from Manor to Indian Head, Sask.

Canada Machine Gun Corps, No. 2 Company, transferred from Nanaimo to New Westminster, B.C.

Robbers Destroy Noted Paintings

London.—Scotland Yard detectives are investigating the \$35,000 robbery of the home of Colonel Harry Dey, M.P., in which the thieves slashed four valuable paintings, one the gift of Hindustani, the handuff king, in 1809, inscribed "To Harry Dey from his Governor, Sir Harry Hindustani." Colonel Dey said he could not imagine a motive for the vandalism.

Bill Given Second Reading

London.—Second reading was given in the house of lords to the Workmen's Compensation "Transfer of Funds" Bill, under which compensation awarded beneficiaries in one part of the Empire may be transferred to the country in which they reside. The bill arose from a resolution passed by the Imperial conference last year.

GOVT. VICTORY IS NOW ASSURED IN MANITOBA

Winnipeg.—Premier John Bracken and his Progressive supporters were returned to power in the provincial general election with a clear-cut mandate to guide the political destinies of Manitoba for another five years.

Indications are for a Government victory in 29 of the 55 seats in the Legislature, or equal to its representation at dissolution.

The striking feature of the election however, was the showing of the Conservative Party, which in standstill early compiled, was credited with 15 seats, a gain of nine Liberals appeared to have lost two seats, with only three candidates declared elected and two leading, while Labor appeared to have weathered the storm with its pre-dissolution representation unimpaired. The gains were chiefly made at the expense of the Independent group, which had only elected one member and was leading in two. In the last House the Independents had a voting strength of eight.

The electors of Manitoba appear to have registered a sweeping verdict in favor of extending the present facilities for the sale of beer. Winnipeg polled a majority of approximately 15,000 for changes in the beer laws, and sale of beer by the glass in Government-licensed establishments likely will be the result. Proponents of the beer parlour out-lets, those in favor of beer by the bottle under the "cash-and-carry" system by nearly two to one. Indication that the electors want the Government to continue its control over the distribution of intoxicants was shown in the defeat of the proposal which would have given the brewers the right to deliver beer direct to permit-holders.

Dusting Wheat Fields

Will Use Aeroplanes to Control Dust by Spreading Chemicals

Fargo, N.D.—Aeroplanes for dusting wheat fields with "rocks," a chemical with which experiments are to be made in the hope that it will prevent or control black stem rust on wheat, will be used on an extensive scale in Manitoba and will be used in a smaller way in Cass County, North Dakota, it was learned here.

Crows Nest Pass C.G.I.T. at Lee Lake

Towns in the Pass Represented at Beautiful Summer Camp

After all sorts of difficulties the girls went into camp on Monday afternoon. The rain made the task of pitching the tents very difficult, but with help from the men who drove the girls in things were in

good trim by supper time. The second day brought glorious weather with the chance to follow the complete program.

The girls are divided into four tribes, who compete for first position for the quietest tent at night and the neatest tent for morning inspection. The tribe is also the basis for the group study and sports contests. Miss Nix takes care of the swimming. Continued good weather will be all that is necessary for the complete success of the camp. There are 50 present representing the towns of Cowley, Blairmore, Hillcrest, Bellevue and Coleman.

Local and General Briefs.

Charlie Stephenson spent the holidays in Lethbridge.

Miss Florence Bell has returned to Calgary, after spending the holidays with her mother here.

Mr. and Mrs. J. Burdett of Seattle are the guests of Mrs. Kenneth Foster, Third street.

R. E. Lewin, master baker, arrived last week to take a position with the Coleman Bakery.

Mrs. Hope and daughter Connie and Mr. Van Duzee motored to Macleod to spend the holidays.

R. F. Barnes was among those playing in the tennis tournament at Fernie on Friday and Saturday.

T. Halstead of The Journal office spent the holidays at his home at Macleod.

Miss Adela Whiteside is home from Vernon, B.C., where she has been attending college.

Miss Agnes Kellock has returned to her home here from Calgary to spend the summer vacation.

Miss Margaret Dunlop of the Central school teaching staff left on Friday morning for the coast, to spend the summer vacation.

Mrs. J. Hodgson of Winona, Ont., arrived on Sunday morning to visit her parents, Mr. and Mrs. James Scott.

Davie and Jean McDonald of Roseville Valley, B.C., are visiting with Mr. and Mrs. W. Bell of the Grand Union Hotel.

Mrs. J. A. Price and Miss Gladys Price are leaving on Friday to spend a vacation at the Coast. They intend spending a few days at Banff en route.

J. Hoven, agent at Kipp, and a former member of the C.P.R. staff here, spent Friday evening in town on his way to Fernie to spend the holidays.

Mr. and Mrs. David Brown, who have lived here for a number of years, will leave this week for Lethbridge, where Mr. Brown will engage in the insurance business.

Mrs. L. Hall and daughter Anna and Masters Maynard and Kenneth left on Sunday to spend the summer holidays with Mrs. Hall's father at South Fork.

People wishing to advertise articles for sale, lost or found, or houses to rent or sell, will find The Journal an efficient and economical medium in which to make known their wants. The cost is ten cents per line, with a minimum charge of 25c. The Journal's telephone is 209.

Coming — Saturday, July 16, "Macfadden's Flats," at the Palace and Grand Theatres. 46-2c

See the Maloney and Sharkey fight picture at the Palace and Grand theatres on Thursday and Friday, July 14-15. 46-1c

Mrs. Russell Ferguson and daughter Joy left last week for a visit with friends in Fernie, after which they will proceed to the coast to spend a few weeks.

Principal Powell left on Friday evening for Edmonton and will spend two weeks there marking examination papers. Mr. Powell and bally accompanied him to Calgary, where she will visit friends.

Mr. and Mrs. John Hadfield left on Sunday evening for Bedford, N. S., and prior to leaving spent a few days visiting with Mr. and Mrs. W. Hoggan and Mr. and Mrs. J. S. Rogers, Sixth street.

Among visitors from Coleman who will motor to the Calgary Exhibition are Mr. and Mrs. W. Bell and children and Mrs. John Bell, Mr. and John Burns and Dick Shone.

Four cars from Saskatchewan drove into the tourist camp on Monday evening, looking considerably the worse for their experiences east of Fincher Creek. Their remarks on that part of the road were quite the reverse of complimentary, but they were thankful they had reached the end of their troubles when struck they mountains.

Appropriate reference was made by the Rev. A. D. Currie at St. Alban's church on Sunday morning to Confederation, in which he reviewed briefly the early struggles for responsible government in Canada, and the development in the sixty years that have passed since the inauguration of the Dominion, paying tribute to those men of vision who foresaw the importance which it was to attain in the British Empire.

Various gardens in town are showing the benefit of the recent rains, while the hillsides are covered with wild flowers of all descriptions.

St. Paul's United Church of Canada

Sunday, July 10
